</tbody>
</table>

*Notes:*
- The table contains a series of entries with values ranging from 2.5 to 30.
- The entries in the second column appear to be a mix of symbols and numbers, possibly indicating measurements or calculations.
- The entries in the third column are mostly numbers, with some symbols interspersed.
- The values in the fourth column range from 663 to 902,723, indicating a possible range or set of values.

*Additional Observations:*
- The table seems to be related to a specific set of calculations or measurements, possibly in a scientific or engineering context.
- The presence of symbols and consistent numeric values suggest a structured data set.
- Without specific context, the exact nature of the data cannot be determined.

</tbody>
</table>

</tbody>
</table>

**Notes:**
- The table contains data with units and numerical values.
- The values in the table range from 1.25 to 1639.205.
- The units appear to be consistent throughout the table.

---

**Notes:**

- The table contains data for various measurements, likely related to construction or engineering, with columns for different parameters and values.

- Specific measurements include lengths, possibly in centimeters or millimeters, and other numerical values that might represent other related data such as weights or capacities.

- The data seems to be organized in a way that facilitates easy reading and quick reference for specific values or ranges.
